PRINTABLE CHEAT SHEET

PHASE 10 — RULES & SCORE SHEET

2–6	108	10	10
PLAYERS	CARDS	HAND SIZE	PHASES TO CLEAR

SETUP

- **Deck:** 108 cards — 96 number cards (1–12, four colors, two of each) + 8 Wild + 4 Skip.
- Deal **10 cards** to each player. Flip the top of the deck to start the discard pile. Everyone begins attempting **phase 1**, no exceptions.

HOW A TURN WORKS

1. Draw 1 card (from the draw pile or the top of the discard), then discard 1 — a standard rummy-style turn.
2. Lay down your phase only once you hold the **entire combination at once**, in a single turn. Partial progress across turns doesn't count.
3. After laying down, extra cards can go onto your own phase or onto any phase already laid down that round, if they fit.
4. **Wild** fills any gap in a set, run, or color group. **Skip** forces a chosen player to miss their next turn — it can't help complete a phase.
5. Didn't complete your phase this round? Attempt the exact same phase again next round.

SCORING PER ROUND

CARD LEFT IN HAND	POINTS
Number, 1–9	5 each
Number, 10–12	10 each
Skip card	15 each
Wild card	25 each

Player who goes out scores 0 for that round. Win: first to complete phase 10 and discard their last card that round wins outright — cumulative score only breaks a same-round tie.

SET / RUN / COLOR, QUICK REFRESHER

- **Set** — 2+ cards, same number, any color.
- **Run** — 4+ cards in consecutive number order, any color.
- **Phase 8** — 7 cards of one color, numbers don't matter.

SHEET LEGEND

Each round, check the box under a player's name if they laid down that phase, and write their round score underneath. Player who went out scores 0.
