PRINTABLE CHEAT SHEET

UNO — RULES & SCORE SHEET

2–10	108	7	500
PLAYERS	CARDS	HAND SIZE	TARGET SCORE

SETUP

- **Deck:** 108 cards — 76 number cards (0–9, four colors) + 24 action cards (Skip, Reverse, Draw Two ×2 per color) + 4 Wild + 4 Wild Draw Four.
- Deal **7 cards** to each player. Flip the top of the remaining deck to start the discard pile.
- If that first card is a Wild Draw Four, most groups reshuffle it back in and flip a new one.

HOW A TURN WORKS

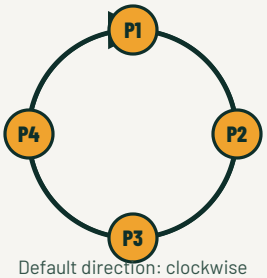
1. Match the top discard card by **color, number, or symbol**. Wilds match anything — name the next color when you play one.
2. Nothing matches? Draw 1 card. Playable? You may play it, or just keep it — your turn ends after the draw either way.
3. Down to exactly 1 card? Say **"Uno"** out loud immediately. Miss it and get caught before the next player's turn starts → draw 2 as a penalty.

SCORING (OPPONENTS' CARDS, PER ROUND)

CARD LEFT IN HAND	POINTS TO ROUND WINNER
Number card (0–9)	Face value
Skip / Reverse / Draw Two	20 points each
Wild / Wild Draw Four	50 points each

First to 0 cards wins the round; add every opponent's leftover-hand value to your score. First player whose running total hits **500** wins the game.

TURN ORDER & SPECIAL CARDS



Default direction: clockwise

Reverse flips the direction of play (clockwise ↔ counter-clockwise). **Skip** jumps straight over the next player in whichever direction is currently active — that player misses their turn entirely.

PLAYERS TONIGHT

1. _____ 2. _____

3. _____ 4. _____

5. _____ 6. _____

Each round: add up every card left in the other players' hands (table on the left) and credit it to whoever went out.

HOUSE RULES IN PLAY TONIGHT

- ☐ Stacking (pass a Draw Two/Four along instead of drawing)
- ☐ 7-0 rule (7 swaps hands, 0 rotates every hand)
- ☐ Jump-in (play an identical card out of turn)

None of these are in the official rulebook — agree on which ones you're using before the first card is dealt.
