TOTAL																

Write the player names in the wide boxes at the top, in seat order. Cards per hand shown are the usual 10 down to 1 and back up to 10 (3 to 5 players). With 6 players start at 8 (15 hands), with 7 start at 7 (13 hands): cross out and write your own.

Bidding: starts left of the dealer, the dealer bids last. The hook: the dealer can't bid the number that makes all bids add up to the cards dealt. Tricks taken must add up to the cards dealt.

Scoring (default): 1 point per trick, plus 10 for making your bid exactly. **Simple version:** 10 + your bid for an exact bid, 0 for a miss. Write each hand's points next to the bid and tricks, or add them up on the back, and put the total in the last row.

For personal, at-home use.
