FINAL							

Write the team or player names in the wide boxes at the top. Bid is the bid of the side that bid (2, 3 or 4; leave it empty for the other sides). Took is the points the side took: High, Low, Jack and Game are 1 point each. Game: 10 = 10, ace 4, king 3, queen 2, jack 1; most card value in your tricks wins it, a tie gives it to nobody.

Made bid: score every point you took. **Missed:** minus the bid, so Total can go below zero. The other sides always score the points they took.

Play to 11 (21 for partnerships, 7 in a short game). A side wins only on a hand where it bid and made its bid. The Dealer box moves one seat to the left each hand.

For personal, at-home use.
