UNO SCORE SHEET

ROUND								
Player name								
Round 1								
Round 2								
Round 3								
Round 4								
Round 5								
Round 6								
Round 7								
Round 8								
Round 9								
Round 10								
Round 11								
Round 12								
TOTAL								

CARD VALUES WHEN A ROUND ENDS

CARD LEFT IN A HAND	POINTS
Number card, 0 to 9	Face value
Skip, Reverse or Draw Two	20 each
Wild or Wild Draw Four	50 each
Wild Shuffle Hands or Wild Customizable (112-card decks)	40 each

TWO WAYS TO COUNT

Standard: the player who goes out writes down the value of every card left in all the other hands, added together. Nobody else scores. The first player to reach 500 wins.

Running tally: every other player writes down the value of their own hand, round after round. The player who went out adds nothing. As soon as someone reaches 500 the game stops and the lowest total wins.

For personal, at-home use.
